

# PPE DONNING AND DOFFING

## AVIAN INFLUENZA • FARM WORKERS

### BEFORE STARTING

Follow your employer's instructions for entering and leaving the workplace

Use the specific areas designated for putting on clean PPE and removing dirty PPE

Leave clothes, personal items, food and drinks in the designated areas indicated by your employer

Wash your hands for about 40 to 60 seconds with soap and water or sanitize them with alcohol

After washing your hands, put on the PPE in a clean area, following the steps below:

### PPE DONNING

#### STEP #1

Put on the protective suit

#### STEP #2

Put on disposable boots and covers

#### STEP #3

Put on the waterproof apron, adjusted at the neck and waist

#### STEP #4

Put on the NIOSH® approved particulate respirator

#### STEP #5

Put on safety glasses or face shield

#### STEP #6

Put on the disposable cap, if necessary

#### STEP #7

Put on the protective helmet, if necessary

#### STEP #8

Put on disposable gloves

#### STEP #9

Put on work gloves

# PPE DONNING AND DOFFING
